

JODY W. REILLY

VP | DESIGN, CONSTRUCTION & PROGRAM MANAGEMENT

jreilly@QHR.com | (615) 221-3757

Jody has developed a broad facilities management skillset during his 21 years of specific healthcare design and construction experience. During the past 16 years, he has served directly in facilities management on the owner side with direct supervision of all design, construction, infrastructure and real estate related endeavors. He has worked with such clients as QHR Health, Quorum Health, Community Health Systems, Dialysis Clinic, Inc. and HCA.

Jody brings a strong track record of project and program management skills to the table. He can assist and drive facility strategic master planning efforts into design all the way through construction and closeout. He has a wide range of project experience from comprehensive, multi-year, multi-phased projects, down to minor infrastructure repair and replacement. His team can assist with development of real estate from acquisition and divestures as well as medical office building development.

As program manager, he will be an advocate and trusted advisor to the client. His expertise will guide and facilitate the client's vision to fruition.
